

Breckland Local Plan Update

Following the June 2023 Beeston with Bittering Parish Council meeting it was decided that we make more easily available the Local Plan update from Breckland. We feel it is important to keep people informed and be transparent in the information we are exposed to.

This document illustrates where local land owners have responded to Breckland's 'call for sites' in 2022 for sites that could be suitable for future development but is undecided at this time.

If you wish to express your point of view on any of these sites being considered for development please contact the Parish Council or come along in person to one of our public meetings held every month in the village hall.

The full document is in the public domain and can be found here (all one line no spaces):
